"Address the ultimate answer at some point along the way, but as I said, my focus is on winning this game. In addition, quarterback Ben Roethlisberger was a complete for the second consecutive day and don't miss Monday's game for anything, which could be your final match at Heinz Field. "I don't speak in garant³As or definitive," said Roethlisberger, who is in his 18th season after being drafted in the first round in 2004. Following Cleveland's final practice Å the side, only five carry a designation, with two listed as questionable and three ruled ³. Green was able to get into limited practice on the sideline to give him a chance to play, while Harvin was absent all week. On Monday night Å the Å of week 17 Cleveland Browns vs. Scales was on the Cincinnati Bengals practice squad. In addition, the Steelers signed linebacker Tegray Scales. Å let's look at Å the Browns are ready to have assets, that they are already out, and that seems to be a game-time decision³ n. Scales, who first signed with the Steelers in January 2019, entered the NFL as a rookie with no free agent draft with the Rams after the 2018 NFL Draft. Johnson has been ruled out for Monday's game, while Harvin is questionable. Harrison was a full participant Thursday, but was downgraded Friday to limited and remained as such the side. Included in this list are DE Myles Garrett (groin), QB Baker Mayfield (shoulder), WR Jarvis Landry (knee), CB Greg Newsome II (concussion³ a cerebral), C JC Tretter (knee), and LB Stone Takitaki (shoulder). A total of 14 players have been listed at some point this week. But, looking at the big picture, say that all the signs point to this could be all. The team practiced indoors as rain drenched the Pittsburgh area on Saturday. Scales played collegiately in Indiana where the linebacker had 325 tackles and 18 sacks. However, Cleveland has had a ³ moment recently with its lesi³ report³ and Week 17 has not been different. different. different.
